

SYED AJMATHULLA

Software Developer | Angular | Java | Spring Boot | Full Stack Development | Healthcare EHR
Hyderabad, India | sdajmathulla@gmail.com | +91 8328044343 | linkedin.com/in/syed-ajmathulla-055ab1216

SUMMARY

Software Developer with 4.8+ years of professional experience in frontend development, specializing in Angular, TypeScript, JavaScript, RxJS, REST API integration, and enterprise healthcare applications. Experienced in developing scalable UI modules for a US-based Electronic Health Record (EHR) platform used by hospitals and clinics. Hands-on experience with Java, Spring Boot, Spring Data JPA, Hibernate, MySQL, REST API development, and full-stack application development through personal projects. Strong understanding of frontend-backend integration and currently focused on Java Full Stack development.

SKILLS

Frontend	Angular 8+, AngularJS, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Bootstrap, Angular Material, RxJS, Reactive Forms, Flexbox, CSS Grid, Responsive Design
Backend	Java, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs, MySQL, PostgreSQL
Security & API	Spring Security, JWT, Swagger/OpenAPI, Angular HTTP Interceptors
Testing	JUnit 5, Mockito, Jasmine, Karma
Tools	Git, GitHub, Maven, Postman, VS Code, IntelliJ IDEA, Jira, Azure DevOps
Core Concepts	OOP, Collections, Exception Handling, Java 8+, Java 21, Streams, Lambda Expressions, REST, CRUD, MVC, DSA Fundamentals
AI Tools	GitHub Copilot, Claude

EXPERIENCE

Software Developer (Frontend) / KJ Systems India Pvt Ltd (Adaptamed) - Vijayawada, Andhra Pradesh

02/2023 - Current

- Developed and maintained Angular 8+/AngularJS single-page applications for EHR YOUR WAY, a US-based Electronic Health Record platform serving hospitals and clinics.
- Developed patient registration, clinical notes, appointments, billing, and provider dashboard modules using Angular, TypeScript, RxJS, and Angular Material.
- Integrated REST APIs for patient data, prescriptions, insurance billing, and other clinical workflows.
- Worked with backend teams on REST API contracts, Swagger/OpenAPI documentation, JWT-secured endpoints, and role-based access across clinical modules.
- Implemented Reactive Forms with multi-level validation for accurate clinical data entry.
- Used RxJS operators to manage asynchronous data streams and application state.
- Collaborated with backend, QA, and product teams to troubleshoot defects, implement features, and deliver production-ready functionality.
- Worked within US healthcare EHR workflows and developed domain knowledge related to patient, provider, clinical, appointment, and billing workflows.
- Tech:** Angular 8+, AngularJS, TypeScript, HTML5, CSS3, SCSS, Bootstrap, REST APIs, Reactive Forms, Angular Material, RxJS

UI Developer / KJ Systems India Pvt Ltd - Vijayawada, Andhra Pradesh

12/2021 - 12/2022

- Developed and maintained frontend modules using Angular and AngularJS for the EHR YOUR WAY healthcare platform.
- Built reusable UI components using TypeScript, HTML5, SCSS, Bootstrap, and Angular Material.
- Integrated REST APIs and worked with Reactive Forms for data-driven clinical and administrative workflows.
- Collaborated with backend and QA teams to implement features, troubleshoot defects, and support application testing.
- Developed understanding of US healthcare EHR workflows, patient workflows, clinical UI requirements, and administrative processes.
- Tech:** Angular, AngularJS, TypeScript, HTML5, CSS3, SCSS, Bootstrap, REST APIs, Reactive Forms, Angular Material

Web Developer Intern / Orotron - Hyderabad, Telangana

07/2021 - 12/2021

- Developed user interfaces and reusable components, improving efficiency of the development process.
- Built responsive UI pages using HTML5, CSS3, Bootstrap, and JavaScript under the guidance of a senior engineer.

- Assisted in feature development, bug fixing, and testing, and participated in code review sessions.
- **Tech:** HTML5, CSS3, Bootstrap, JavaScript, Vue.js

KEY PROJECTS

EHR YOUR WAY - Electronic Health Record Platform (KJ Systems India Pvt Ltd / Adaptamed LLC)

- Contributed to the frontend development of a full-suite EHR platform used by hospitals and clinics across the USA.
- Developed patient management modules including patient registration, appointment scheduling, clinical notes, billing, and provider dashboards.
- Built reusable role-based UI components for doctors, nurses, and administrative staff aligned with clinical workflows.
- Implemented Reactive Forms with multi-level validation and integrated REST APIs for data-driven workflows.
- Worked with RxJS for asynchronous operations and frontend state/data handling.
- Collaborated with backend and QA teams to implement features, troubleshoot defects, and improve application quality.
- **Tech:** Angular 8+, TypeScript, JavaScript, RxJS, HTML5, SCSS, Bootstrap, Angular Material, REST APIs, Reactive Forms

Healthcare Appointment Management System - Personal Full-Stack Project

- Developing a full-stack healthcare appointment management application using Angular, Java, Spring Boot, Spring Data JPA, Hibernate, and MySQL.
- Implementing REST APIs using Controller, Service, and Repository layers for patients, doctors, and appointment management.
- Implementing database persistence using Spring Data JPA/Hibernate with MySQL.
- Building Angular components, Reactive Forms, HTTP services, route guards, and interceptors for frontend-backend integration.
- Practicing authentication and authorization using Spring Security and JWT.
- Implementing CRUD operations, validation, exception handling, search, pagination, and sorting.
- **Tech:** Java, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Spring Security, JWT, MySQL, REST APIs, Angular, TypeScript

Patient Management System

- Built modular Angular components and responsive UI workflows for patient information management.
- Integrated REST APIs and Reactive Forms with validation for data-driven patient workflows.
- **Tech:** Angular, TypeScript, REST APIs, Reactive Forms

Enterprise Dashboard Application

- Developed responsive dashboards using Angular Material and RxJS for real-time data visualization and reusable UI components.
- Improved frontend maintainability through reusable components and modular UI development.
- **Tech:** Angular Material, RxJS, REST APIs

EDUCATION

B.Sc (MPC), 01/2020 - Parvathaneni Brahmayya Siddhartha College of Arts & Science, Vijayawada (Krishna University, Full Time)

Intermediate (MPC), 01/2015 - Sri Chaitanya Junior College, Andhra Pradesh (Board of Intermediate Education, Andhra Pradesh)
