PROFESSIONAL SUMMARY

Frontend Developer with 4.8+ years of experience building Angular applications for a US-based Electronic Health Record platform used by hospitals and clinics. Strong in TypeScript, RxJS, Reactive Forms, Angular Material and REST API integration, with working knowledge of US healthcare workflows (patients, providers, appointments, billing). Also building full-stack projects with Java, Spring Boot and MySQL. Looking for Angular / Frontend roles at product-focused companies.

TECHNICAL SKILLS

Frontend: Angular 8+, AngularJS, TypeScript, JavaScript (ES6+), RxJS, HTML5, CSS3, SCSS, Bootstrap, Angular Material, Reactive Forms, Responsive Design

API & Security: REST API integration, Swagger/OpenAPI, JWT-based auth, Angular HTTP Interceptors, Route Guards

Testing: Jasmine, Karma

Backend (learning, project use): Java, Spring Boot, Spring Data JPA, Hibernate, MySQL

Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA, Jira, Azure DevOps

PROFESSIONAL EXPERIENCE

KJ Systems India Pvt Ltd (Adaptamed LLC) - Vijayawada, Andhra Pradesh

Client product: EHR YOUR WAY, a US-based Electronic Health Record platform used by hospitals and clinics

Software Developer (Frontend) *02/2023 - Present*

- Developed and maintained Angular 8+ / AngularJS single-page applications for EHR YOUR WAY, covering patient registration, clinical notes, appointments, billing and provider dashboards.
- Integrated REST APIs for patient data, prescriptions and insurance billing; worked with backend teams on API contracts, Swagger documentation and JWT-secured endpoints.
- Built Reactive Forms with multi-level validation to improve accuracy of clinical data entry.
- Used RxJS operators to manage asynchronous data streams and application state.
- Implemented role-based access in the UI across clinical modules for doctors, nurses and admin staff.
- Collaborated with backend, QA and product teams to troubleshoot defects and ship production-ready features.

UI Developer - KJ Systems India Pvt Ltd *12/2021 - 12/2022*

- Built reusable UI components in Angular, TypeScript, SCSS, Bootstrap and Angular Material, and maintained AngularJS modules for clinical and administrative workflows.
- Integrated REST APIs and built Reactive Forms for data-driven screens used by clinical and front-office staff.
- Worked with backend and QA teams to fix defects, implement features and support application testing.

INTERNSHIP

Web Developer Intern - Orotron, Hyderabad, Telangana *07/2021 - 12/2021*

- Built responsive UI pages and reusable components using HTML5, CSS3, Bootstrap, JavaScript and Vue.js.
- Assisted with feature development, bug fixing and testing; took part in code reviews.

PROJECTS

EHR YOUR WAY - Electronic Health Record Platform (frontend contributor)

- Built patient registration, appointment scheduling, clinical notes, billing and provider dashboard modules.
- Created role-based UI components for doctors, nurses and administrative staff aligned with clinical workflows.

Tech: Angular 8+, AngularJS, TypeScript, RxJS, SCSS, Angular Material, REST APIs, Reactive Forms

Healthcare Appointment Management System (personal full-stack project)

- Full-stack app for patients, doctors and appointments with an Angular frontend and Spring Boot REST backend (Controller-Service-Repository layers).
- Persistence with Spring Data JPA, Hibernate and MySQL; CRUD, validation, exception handling, search, pagination and sorting.
- JWT authentication with Spring Security; Angular route guards, HTTP interceptors and Reactive Forms.

Tech: Angular, TypeScript, Java, Spring Boot, Spring Security, JWT, Spring Data JPA, Hibernate, MySQL

Enterprise Dashboard Application

- Responsive dashboards with Angular Material and RxJS for real-time data visualization, built from reusable, modular components.

Tech: Angular Material, RxJS, REST APIs

EDUCATION

B.Sc (MPC) - Parvathaneni Brahmayya Siddhartha College of Arts & Science, Vijayawada (Krishna University) 2015 - 2020
